

Energy performance certificate (EPC)

22 Barry Blandford Way LONDON E3 3TQ	Energy rating B	Valid until:	10 July 2036
		Certificate number:	8736-1423-5600-0083-4206

Property type

Ground-floor maisonette

Total floor area

42 square metres

Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read [guidance for landlords on the regulations and exemptions \(https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance\)](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Energy rating and score

The property's energy rating is B. It has the potential to be A.

[See how to improve this property's energy efficiency.](#)

The graph shows this property's current and potential energy rating.

Properties get a rating from **A (best)** to **G (worst)** and a **score**. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Summed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, insulated (assumed)	Good
Wall	System built, as built, insulated (assumed)	Very good
Window	Fully double glazed	Average
Main heating	Community scheme	Very good
Main heating control	Charging system linked to use of community heating, room thermostat and TRVs	Good

Feature	Description	Rating
Hot water	Community scheme	Very good
Lighting	Excellent lighting efficiency	Very good
Use of	(another dwelling above)	N/A
Door	Solid, insulated (assumed)	N/A
Window tightness	(not tested)	N/A
Secondary heating	None	N/A

Low and zero carbon energy sources

Low and zero carbon energy sources release very little or no CO2. Installing these sources may help reduce energy bills as well as cutting carbon emissions. The following low or zero carbon energy sources are installed in this property:

- Community combined heat and power

Primary energy use

The primary energy use for this property per year is 114 kilowatt hours per square metre (kWh/m2).

[About primary energy use](#)

Smart meters

This property had **no smart meters** when it was assessed.

Smart meters help you understand your energy use and how you could save money. They may help you access better energy deals.

[Find out how to get a smart meter \(https://www.smartenergygb.org/\)](https://www.smartenergygb.org/)

How low this affects your energy bills

An average household would need to spend **£379 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £0 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2026** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Estimated energy needed to heat this property

Estimated energy needed in this property is:

- 1,296 kWh per year for heating
- 2,115 kWh per year for hot water

mpact on the environment

is property's environmental impact rating is B. It has the potential to be B.

roperties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

arbon emissions

n average household produces	6 tonnes of CC
his property produces	0.9 tonnes of CC
his property's potential production	0.9 tonnes of CC

u could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

ese ratings are based on assumptions about average occupancy and energy use. People living at the property may use differen
ounts of energy.

Steps you could take to save energy

If the assessor did not make any recommendations for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Oliver Rennalls
Telephone	07944 954 778
Email	oliver@oliverrennallsassociates.com

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	Elmhurst Energy Systems Ltd
Assessor's ID	EES/008655
Telephone	01455 883 250
Email	enquiries@elmhurstenergy.co.uk

About this assessment

ssessor’s declaration	No related party
